

The following is a letter from the Camden County Planning & Development agency regarding building permits at Bridge Pointe. Please call us with any further question at 912-342-0580.

Good Afternoon,

Camden County Planning & Development is issuing permits for Bridge Pointe Subdivision with the understanding that a Certificate of Occupancy will not be issued for the property until Water Utility Management has approved the connection for both water and sewer services. No person may occupy or reside in the home until a Certificate of Occupancy has been officially issued.

All applicants will be required to sign an acknowledgement form confirming this requirement.

Let me know if you need anything else.

Thank you,

Cassie Turpin, CFM
Interim Planning Director
912-510-4310
